TECHNICAL SKILLS

- **Programming Languages** : JavaScript , C/C++.
- **Frameworks/Libraries** : React.js , Node.js , Express.
- **Database** : MongoDB.
- **Tools** : Git/Github , VS Code , Postman.
- **Other** : DATA Structures & algorithms , RESTful APIs Development , Agile Methodologies .

PROFESSIONAL SUMMARY

Results-oriented Software Engineer with expertise in React.js, Node.js, Express.js, and MongoDB, complemented by a strong foundation in C/C++ and Data Structure & Algorithms (DSA).
Experienced in developing scalable web applications, skilled in version control using Git & GitHub, and proficient with testing and API tools like Postman.

PROJECTS

Password Manager

- Tech Stack: React.js, useState, Lottie icons, UUID, React Icons, Tailwind CSS.
- Website features three input fields where users can enter a website link, username, and password.
- Saved passwords, corresponding usernames, and links are displayed below the input fields.
- Data is stored in the browser's local storage, ensuring quick access without security concerns.
- https://raghuveeersharma.github.io/password_manager/

TODO-WEBAPP

- Tech Stack: React.js, Node.js, Express.js, MongoDB.
- Features an input field for users to write tasks, with an "Add" button that submits tasks to the database using a POST request.
- Tasks are fetched from the database and displayed below the input field using a GET request in another component.
- Includes "Edit" and "Delete" buttons for managing tasks.
